

Ionix[®] Supreme

Natural Fruit Flavour | Liquid & Powder

NEW
SUPER
CHARGED
FORMULA

Powerful New Formula by John Anderson.

Supercharged with new extraction technology, this adaptogenic elixir includes a higher concentration of bio-actives to support your energy and physical performance under stress.

What should I know about Ionix Supreme?

Isagenix Founder, Master Formulator, and Formula Developer of Product B John W. Anderson brings you a powerful new powder formula featuring standardised extracts with a higher concentration of bio-actives. This new, supercharged Ionix Supreme helps normalise the body's functions, as well as rejuvenate and help your body better cope with stress.

This nutrient-rich tonic contains plant-based adaptogens like schizandra, rhodiola, rhododendron, ashwagandha and wolfberry. Adaptogens have been used for centuries to improve health and help the body combat periods of stress, without the side effects of stimulants.

Researchers have long studied the effect of stress on cell aging and telomeric DNA. In fact, several recent studies have suggested that better management of psychological stress may support more graceful aging. Adaptogens, like the ones in Ionix Supreme, could be the key to beating stress, supporting healthier aging and increasing longevity.

How can I benefit from Ionix Supreme?

Ionix Supreme was designed to energise the cells and help the body better cope with stress, while supporting mental and physical performance.

Ionix Supreme contains antioxidants, which help to protect cells from free radicals.

Neither the liquid nor the powder forms of Ionix Supreme contain artificial stimulants like some energy-boosting drinks on the market.

ISAGENIX[®]

How does Ionix Supreme compare to the competition?

Isagenix Founder and Formulator John Anderson spent more than a decade researching specialised botanical ingredients that led him to Ionix Supreme — nature's answer for energy, stamina and overall health. Many of the ingredients included in this rejuvenating formula are not typically found on your average grocery shelf. Among them are the world's finest and sometimes most rare natural herbs, botanicals and compounds that provide powerful adaptogenic and antioxidant properties.

Ionix Supreme Frequently Asked Questions

WHAT MAKES IONIX SUPREME SO UNIQUE?

Ionix Supreme contains a comprehensive collection of proven ingredients, well documented to support mental and physical performance. Ionix Supreme is made with quality ingredients tested for potency and purity.

HOW IS IONIX SUPREME DIFFERENT THAN OTHER REJUVENATING DRINKS?

Ionix Supreme contains a high concentration of natural ingredients, including both antioxidants and nutrients, unlike other products that contain only a handful of them. We found the most complete group of ingredients from around the world to create a powerful, nutrient-rich supplement containing a variety of adaptogens that help normalise the body's functions, help the body better cope with stress and increase energy.

WHAT ARE THE DIFFERENCES BETWEEN IONIX SUPREME POWDER AND LIQUID?

Both feature a high concentration of adaptogens and a delicious, natural fruit flavour. However, their different forms make each perfect for

different lifestyles. The original Ionix Supreme liquid is already blended, so there's no mixing needed. Alternatively, the new Ionix Supreme powder is portable; you can take the powder with you and mix it with water whenever you want.

WHAT ARE ADAPTOGENS AND WHY ARE THEY IMPORTANT?

Adaptogenic ingredients are derived from plants, they adapt to your body's needs. They also help harmonise the body, energise cells and increase the body's resistance to stress. Athletes use adaptogens to increase performance and speed recovery.

WHAT ARE ANTIOXIDANTS AND WHY ARE THEY IMPORTANT?

Antioxidants promote immune health by helping to protect cells from free radicals. Free radicals are created when your body is exposed to environmental toxins, stress and other everyday factors. Your wellness depends largely on how healthy your immune system is.

Note: Contains sugars. Vitamin supplements should not replace a balanced diet. Not suitable for children.
